

Export Compliance Statement

Commitment to Compliance

At **RedSun (HK) Group Limited**, we are fully committed to complying with all applicable export control laws and regulations of the People's Republic of China, including but not limited to the Export Control Law of the PRC and the Regulations on the Export Control of Dual-Use Items. We view compliance as a cornerstone of our business and a shared responsibility across our entire organization.

Our Products & Controls

Our Controlled Reception Pattern Antenna (CRPA) and related GNSS anti-jamming solutions are designed for lawful civil and commercial applications. Due to their technical characteristics, these products are subject to dual-use item export controls. Consequently, all exports of such items are contingent upon obtaining the necessary export license from the Chinese Ministry of Commerce prior to shipment.

Your Responsibilities

As part of our compliance process, we require all customers and partners to provide accurate and complete documentation, including but not limited to a certified End-User and End-Use Statement. You are required to declare the final destination, the specific application of the product, and confirm that the items will not be diverted for any prohibited or military end-use, nor re-exported without authorization.

Contact Information

For any questions regarding our export control compliance policy or if you require further information, please contact our compliance team at: sales@chreditsun.com
